Strengthening New York Agriculture

Why Join New York Farm Bureau?

At New York Farm Bureau, we understand that agriculture touches all our lives — whether you're a farmer, a small business owner who depends on a strong rural economy, or a consumer who cares about how your food is grown. We proudly welcome everyone who supports agriculture, not just those who work directly on the farm.

Membership with NYFB is a rewarding and valuable way to stay informed and make your voice heard. Farm Bureau stands up for farmers, shares reliable and money-saving resources, and supports leadership development.

Our policies and advocacy efforts are directly shaped by our members. This bottom-up approach ensures that we genuinely represent the needs and concerns of the agricultural community in New York. We represent dozens of commodities, from the smallest maple farm to the largest dairy operation, offering a vast array of resources and money-saving benefits for all kinds of farms and agriculture-adjacent businesses.

We invite you to join a community that grows our food, protects the land, and fights to preserve a strong agricultural legacy for generations to come. With 52 county Farm Bureaus across the state, getting involved has never been easier.

Join today to support and strengthen agriculture — and make your voice heard.

A membership in NYFB is an investment in you

When you join New York Farm Bureau, you not only support agriculture, but you also enjoy direct benefits for you and your farm family. Consider the ways NYFB works for you:

- **Creating opportunities for growth:** We collaborate with the best in the business, constantly building relationships with trusted experts. With established connections to scientists, academics, legislators, and business leaders, we keep you ready for innovations and challenges alike as you adapt to future demands.
- **Advancing business solutions:** We offer solutions that optimize your profit potential, including our Workers' Compensation Safety Group 486, educational webinars, and discounts on farm tools, equipment, and business products.
- **Shaping policy:** As a grassroots organization, we provide you with a seat at the table to create a favorable environment for New York farms. Our members are directly involved in creating our policy.
- **Leveraging trends:** We gather and analyze the latest trends, issues, and news through channels like weekly news alerts and our bimonthly publication, Grassroots. When you call NYFB with a question, a real person connects you with the help you need.
